H. Nawi Raya 1A, South Jakarta, Jakarta

## PROFESSIONAL SUMMARY

Recent Computer Science graduate with Business Analyst experience at Kalbe Consumer Health. Proficient in managing cross-functional teams, gathering requirements, and delivering design solutions that align with business needs. Experienced in Agiled methodologies and project management tools like Jira, Figma, and Scrum. Seeking to apply analytical, leadership, and project management skills to drive product development and business outcomes in a dynamic environment.

## EDUCATION

### Bina Nusantara University

Bachelor of Computer Science

Kemanggisan, West Jakarta, Jakarta

Sept 2020 - Sept 2024

**Research:** Analysis of the Potential for Solar Panel Development on House Roofs in West Jakarta, Indonesia using GIS Applications and the Mask R-CNN Model

**Technical Skills:** CSS, HTML, Js, Next. Js, GoLang, SQL, Python **Tools:** Big Query, Google Colab, Looker, Excel, Jira, Figma

**Analytical Skills:** Data Cleansing, ERD, Data Visualization, DML. **Project Management:** Scrum, Effort Estimation, Gantt Chart, DDL, Data Prediction, Classification **Flow Diagram, UAT, Requirements Gathering**

## WORK EXPERIENCE

### Kalbe Consumer Health

Business Analyst Intern

Tanjung Priok, North Jakarta, Jakarta

Feb 2023 - Feb 2024

- **Research and Problem Identification:** Conduct research and identify problems up to the solution evaluation stage to ensure fulfillment and compliance with project requirements.
- **Design Solution:** Assist in the creation of design solutions by creating mock-ups using Figma to confirm that the solutions created meet the user's requirements.
- **Project Management:** Contribute to the production of project documents, such as project schedules, and be accountable for ensuring that schedules are followed according to the agreed-upon timeline using JIRA.
- **Team Coordination:** In charge of bridging communication between users and development teams, ensuring that business needs and resulting technology solutions are aligned.
- **Report Preparation and Presentation:** Create and present project status reports to users, and work with cross-functional teams to ensure alignment and suitable project deliverables.

Requirements Gathering, Effort Estimation, Project Timeline, IT Project Management, UAT | *Figma, JIRA*

## ORGANISATIONAL EXPERIENCE

### HIMTI

Coordinator Creative and Design Divison TECHFEST 2022

Kemanggisan, West Jakarta, Jakarta

Sep 2022 - Dec 2022

- Directed creative and design teams of 10 members, successfully delivering the main design concept for TECHFEST 2022.
- Coordinated with technical teams to integrate design and functionality.
- Ensured design consistency across team contributions, contributing to a cohesive and professional event experience.

Design Thinking, Communication Design, User Experience, User Interface, Team Leadership, Time Management | *Figma*

## ACHIEVEMENTS, CERTIFICATIONS & OTHER EXPERIENCE

### UI/UX Course Perempuan Inovasi

2024

UI/UX basics course from design thinking to creating a design website.

Design Thinking, Communication Design, User Experience, User Interface | *Figma*

### DBS Foundation Coding Camp Machine Learning

2024

Machine Learning basics course, especially for object detection.

Python, Machine Learning, Excel | *Google Colab*

### FGA x BINAR Academy Data Science

2024

Data Science course that provides experience in analyzing and predicting data.

SQL, Python, Machine Learning, Data Cleansing, Data Visualization | *Big Query, Looker, Google Colab*

### KMMI Course ITENAS Artificial Intelligence

2021

AI course that learned about artificial intelligence to machine learning, as well as machine learning models.

Python, Machine Learning | *Google Colab*
